Brazilian urban policy and its instruments, the object of this research, were regulated by federal law No. 10,257 of 2001 known as the City Statute. The legislation established the mandatory elaboration of city plans and the possibility of using urban policy instruments. The urban planning of Campos dos Goytacazes has been influenced by this legislation for almost two decades. The objective of this work is to study the effective application of urban policy instruments in the planning of Campos dos Goytacazes. Conducting bibliographic and documentary research; preparation of a table with the instruments of urban policy and their impact on the city plans of Campos dos Goytacazes approved by municipal laws of 2008 and 2020; analysis of the data collected. The research is expected to verify how the urban policy instruments of the federal legislation were included in the urban planning of Campos dos Goytacazes, RJ. Provide information on urban policy instruments and master plans in order to provide support for urban planning and management.

Keywords: Urban policy. City plan. Urban legislation.
